

Workshop Announcement

Title	WebSphere Information Integrator Classic Federation and Event Publisher Workshop
Description	<p>WebSphere Information Integrator Classic Federation provides read and write SQL access to mainframe data sources like IMS, VSAM, DB2, SW AG Adabas, CA-IDMS, and CA-Datacom. It can be used with Java programs, Web applications, BPEL processes, reporting tools, or any other application that can read from ODBC or JDBC data sources.</p> <p>WebSphere Information Integrator Classic Event Publishers captures changes made to mainframe databases or files and publishes these changes to WebSphere MQ. The change data events can be leveraged for data synchronization, application integration, event notification, or to initiate business processes.</p> <p>In this technical workshop, you will gain deep technical insights and practical experience with both the products.</p>
Dates	October 10-13 (Monday 10th, 13:00 CET - Thursday 13th, 12:00 CET)
Duration	3 days net duration
Location	The workshop takes place in the facilities of the IMS-Society Eltingerstr. 5 71229 Leonberg (close to Stuttgart) Germany http://www.ims-society.org/html/mainz.html
Language	English
Class Size	16
Audience	Customers
Topics	Classic Federation Overview, Use Cases, Architecture Installation, Configuration (Lab) IMS Considerations ,Access IMS Data (Lab) VSAM Considerations, Access CICS/VSAM (Lab) DB2 Considerations, Access DB2 data (Lab) Adabas, and IDMS Considerations Security, User Exits, Stored Procedures, MTO Commands Interface, Troubleshooting Access Classic Federation through WebSphere II Standard/Adv./Unl. Edition (Demo) Event Publishers Overview, Use Cases, Architecture Event Publisher for CICS/VSAM (Lab) Event Publishers for IMS and IDMS Reports, Stats, Commands, Traces Customer Scenarios
Prerequisites	Basic database knowledge, plus some practical experience with z/OS
Deliverables	Hands-on sessions (about 50% of time) Technical presentations Usage Scenarios
Speakers	Christian Daser (chris.daser@de.ibm.com) Manuel Mueller (manuel.mueller@de.ibm.com) Robert Kern (robkern@de.ibm.com),
